[Problème de bonbonne sur certaines Anschütz](#)

Copie d'un mail envoyé par Anschütz.

--

Ladies and Gentlemen,  
Dear target shooters,

During product observation and quality control measures the J. G. ANSCHÜTZ GmbH & Co. KG has found out that a certain production lot may show material defects at the compressed air cylinders of target air rifles.

Therefore ANSCHÜTZ would ask to send back the concerned air cylinders which will be sent for a check to the manufacturer. Detailed information have already been published in the internet:

[\[jga.anschuetz-sport.com\]](http://jga.anschuetz-sport.com)

We would ask you to please forward this information to the shooters around you in order to reach a wide spreading.

We really regret the inconvenience that may result for you by this recall. However, we ask for your understanding as your safety when handling your ANSCHÜTZ rifle is most important for us. To deliver products of high quality is the main concern of ANSCHÜTZ, and this is and will be valid for the future, too.

Please note that this recall only refers to the aluminum air cylinders until year of manufacture December 2005 and not to the complete target air rifle.

Best regards,

Your ANSCHÜTZ Newsletter Service
